Waterless Hot Food Well

UL Listed

Unlike traditional steam tables or dry wells, waterless hot food wells from Alto-Shaam feature radiant Halo Heat® technology that evenly surrounds food without the use of extremely hot elements, added humidity or fans. Extend hold times, maintain food quality and reduce operating costs to maximize return on investment.

100-HW/D6

Standard Features

- Extend food holding times with efficient, precise Halo Heat® technology
- Maintain food quality without the use of extremely hot elements, added humidity or fans
- Increase sales with attractive food presentation and quality
- Reduce installation and operating costs with no water or plumbing needed
- Save on maintenance costs, eliminating lime and scale buildup associated with traditional steam tables
- Increase employee and customer safety with elimination of hot water and steam
- Provide optimal holding temperatures with an adjustable thermostat that can be flush-mounted into the counter or a location out of sight from customers
- \bullet Set ideal holding temperatures for any dish with an individual well control option
- HWLF models feature a large flange
- D4 and D6 hot wells include two (2) half/third size pan dividers
- D443 and D643 hot wells include three [3] half/third size pan dividers

Configurations (select one)

Control box cord location

- ☐ Back, standard
- $\hfill\square$ Bottom, optional

Accessories (select all that apply)

- ☐ Pan divider bar—half-size/third-size [11318]
- ☐ Locking kit (5020849)
- ☐ Undermount kit (520793)

One full-size of GN 1/1 pan Two half-size of GN 1/2 pans

D4: Three third-size or GN 1/3 pans

D443: Four third-size or GN 1/3 pans

D4: 24 lb (11 kg) product maximum; 14.5 qt (14 L) volume maximum*

D443: 32 lb (14,5 kg) product maximum; 19.2 qt (17,8 L) volume maximum*

*Based on 4" [100mm] deep pans. Will also accept 2-1/2" [65mm] deep pans; D6 hot wells will accept 6" [150mm] deep pans.

[^]Large flange wells only.

- Appliance must be installed level and must not be installed in any area where it may be directly affected by steam, grease, dripping water, high temperatures, or any other severely adverse conditions.
- Some foods may require additional overhead heating. Always monitor the food temperature and add overhead heating when needed.
- Countertop material must withstand temperatures up to 200°F [93°C].
- A stainless steel heat shield is recommended if the area under the appliance is used for storage.

^{*}Allow 6" [152mm] clearance from control box to conduit bend.
